

How to Play the Left Right Center Dice Game

Step 1: Give three chips to each player.

Step 2: Grab the dice labeled L, C, R.

Step 3: Roll the dice.

Step 4: Roll an L, means you give a chip to the player to your left. Roll a C, means you give a chip to the center pot. Roll an R, means you give a chip to the player to your right.

Step 5: Roll a dot means you keep your chips.

Step 6: Pass the dice to your left for the next players turn.

Step 7: Roll as many dice as chips you have. Losing all your chips doesn't mean you are out of the game because there is a chance another player can roll an L or an R. Pass the die until a player passes you a chip or until a player wins the game.

Step 8: The winner is the last player with chips left. He does not roll the dice, and wins the center pot.

Roll the dice and enjoy!

Thursday, April 26th Time: 5pm to 8pm

Players: \$20 includes Dinner and game chips

Table Sponsors: \$25. Need logo

Proceeds go to our local Charities

Tickets: \$20. Per person
