

What will Proposition 19 do for California?

- **Provides New and Dedicated Funding** for Underfunded Rural and Urban Fire Districts.
- **Generates Hundreds of Millions annually** in property taxes for school districts, fire districts, water districts, community colleges, cities, and counties to help balance budgets and fund fire protection and emergency services, libraries, affordable housing and homeless programs, public health, and other local services.
- **Will Generate 67,000 to 100,000 Transactions Per Year.** Starting in 2021, Proposition 19 will generate a significant increase in annual home sales of at least 67,000 transactions per year and will grow to 100,000 new home transactions per year over the next few decades. Proposition 19 will help address California's housing shortage and economic recovery in the wake of the pandemic.
- **Limits Property Taxes for vulnerable Californians,** removing unfair location restrictions so that seniors, people with disabilities, and wildfire victims can move closer to family or medical care, or replace a damaged home without a property tax increase. Prop 19 will create homeownership opportunities for tens of thousands of renters and new buyers every year.

Yes on 19 is endorsed by over 250 leaders and organizations across California including:
